## FRONT-END DESIGNER

Hello, I'm a Digital Experience maker with a solid foundation on Front~End Development. I've been working with remote and on site teams for over 5 years now. I specialize on improving existing products and support brand personality with design. I love what we do as a software creative force.

## EXPERIENCE

### Lead Designer

2019 - present

♥ skilltransfers [AMSTERDAM-REMOTE]

I solve problems with visuals and improve look & feel of our products, systems and brand.

### Front-End Developer

2017 - 2018

♥ Adaptive Telehealth [USA-REMOTE]

Maintain, implement new changes in the user interface. Create documentation and find solutions for bugs. Create ui mockups and prototypes.

### UIX Developer

2015 - 2017

♥ Neoscloud [USA-remote]

- Create visual concepts, transform them into Hifi Mockups and create prototypes for our Apps.
- Work on the front-end development of the Approved designs and look for solutions to fulfill data visualization requests made.
